SERENGETI UNDER CANVAS

Serengeti National Park

TANZANIA

Famed for its vast open grasslands and exceptional wildlife sightings, Tanzania's magnificent Serengeti National Park boasts 35 species of plains-dwelling game, as well as prolific birdlife. Perhaps most significantly, it is also site of part of the famed Great Migration, an annual movement of wildebeest and other herbivores across the Greater Serengeti-Mara ecosystems, considered one of the greatest spectacles of the natural world.

Over two million animals participate in the Great Migration, with some 500 000 zebra moving ahead of and 200 000 Thomson's gazelle coming behind the main players – one and a half million wildebeest. The wildebeest spend the wet season on the south-eastern plains of Tanzania, moving across to Kenya's Masai Mara when the Serengeti experiences its dry season.

The **&Beyond** Serengeti Under Canvas camps attempt to anticipate the movements of the Great Migration, bringing guests as close as possible to the wildebeest action, as well as exploring magnificent resident game.

The luxurious tented camps of **&Beyond** Serengeti Under Canvas move around the park year-round, attempting to anticipate the movements of the Great Migration and exploring the remote and beautiful corners of the Serengeti with excellent resident game. Using only private campsites, these mobile camps are entirely intimate and exclusive, featuring spacious safari tents, each with a double bed, ensuite bathroom, separate w.c and al fresco bucket shower. Redolent of classic safari style, custom-made Indian rugs, crisp linens, sparkling crystal and polished brass lend flair to the simplicity of camping.

The camp boasts spacious tents. With an additional two metres (almost seven feet) in length, each tent now features an indoor sitting area, thus giving guests more privacy. The day bed in the sitting area converts into a comfortable bed for a child. With additional lighting, double shower, storage chest, luggage racks and safety deposit boxes, these are by far the most luxurious tents in the Serengeti.

Carefully planned according to the projected movements of the Great Migration, the camps aim to bring guests within comfortable driving distance of the herds. However, the wildebeest masses move with the rains, which may occur at a different time each year, so it is not always possible to accurately predict where they will be. **&Beyond's** expert guides will always try to place guests in the midst of the thronging wildebeest but, should the animals not appear when expected, the guides' intimate knowledge of the ample resident game will ensure a rich game viewing experience.

JULY 2015: **&BEYOND** SERENGETI UNDER CANVAS IS NAMED ONE OF THE FIVE BEST LUXURY CAMPS FOR WITNESSING THE WILDEBEEST MIGRATION BY THE GENTLEMAN'S JOURNAL

*"I must compliment **&Beyond** for the most extraordinary and elegant tented camp, which was like staying in a five star hotel. The staff were incredibly warm, friendly and welcoming. Of course the great Migration was an experience I will never forget, even after the many other safaris I have enjoyed in Kenya. There is something very special about Tanzania and the warmth of the people there and the wildlife was abundant."*
